Anti-Human CD3 / CD3 Bispecific Antibodies

The recombinant anti-human CD3 / CD3 (OKT3 / UCHT1) bispecific antibodies have a part (variable regions) or complete amino acid sequences of the mouse anti-human CD3 antibody (hybridoma clone name or number: OKT3 and UCHT1). It is under investigation how the recombinant anti-human CD3 / CD3 bispecific antibody behaves different from the individual monoclonal antibodies and their combination (OKT3 + UCHT1).

Product Details	
Species Reactivity	Human
Source	Mammalian Cells
Isotype	mouse IgG2a
Class	Anti-Human Bispecific antibodies
Type	Recombinant Humanized
Clone	OKT3 / UCHT1
Target	Anti-human CD3 / CD3
Purity	>95%
Molecular Weight	NA
CAS Number	NA
Formulation	NA
Storage conditions	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 3 months from date of receipt, 2 to 8°C as supplied. 12 months from date of receipt, -20°C to -70°C as supplied.
